Delivering Quality & Excellence

Trade That Adds Value

Adding Value in Chemical Trading Since 2006

We move chemicals that move the bottom line of our customers and lives of millions of people invariably. **We are Umesh Techno – India's reliable partner to source chemicals responsibly.**

Founded in 2006, Umesh Techno has expanded and consolidated to become a crucial link in India's chemical trade. Headquartered in Gandhidham, Gujarat, we have presence in 7 cities across Gujarat, Maharashtra and Madhya Pradesh.

An ISO 9001:2015 certified company, Umesh Techno represents more than 15 esteemed chemical conglomerates and supplies a wide range of essential & fine chemicals with value-added market intelligence to leading multinational enterprises. We have the infrastructure and most effective industry channel to cost-efficiently source, store, market, and distribute products in India, UAE and Africa with commitment to quality, safety, environment and timeline.

We leverage our skilled workforce, market knowledge, extensive product portfolio, competitive pricing, far-reaching supply chain capabilities and responsive customer service to connect customers with manufacturers, and bridge the demand for high quality chemicals.

Industrial Engineering Products

Besides chemicals, we also supply a wide variety of high-quality industrial engineering products, right from bearings to lubricants and safety equipments at highly competitive pricing.

Vision

To position ourselves as a leader in the global chemical distribution industry and become a one-stop partner for top players in Indian and international markets with focus on:

PEOPLE

Working with the most dedicated, professional and passionate people.

CUSTOMERS

Providing highest quality products with maximum cost-efficiency.

STAKEHOLDERS

Adding value to businesses associated with us and creating growth opportunities.

SAFETY

Creating effective safety culture to minimize errors and accidents.

ENVIRONMENT

Working towards sustainable solutions and reducing environmental impact.

Values

Customer First

Customer-first approach is at the centre of our services and strategies.

Ethics & Integrity

Fair trade and transparency of actions are the pillars of our company.

Ownership of Work

Our performance stems from deep sense of individual accountability.

Appreciating the Journey

We are passionate about what we do, and this passion drives us forward.

Adapting to Change

We keep tab on market trends and respond quickly to accommodate change.

Long-term Relations

We invest in building personal relations, and loyalty beyond sales.

Adding Value with Strong Capabilities

Market Expertise

We can effectively foresee market trends, cushion against market and price volatility, and ensure continuous supply of products thanks to our sharp grasp of products, trade channels, and the industry. These capabilities ultimately sharpen our edge to provide higher value.

Team

A committed and expert team with more than 17 years of experience in the trading of chemicals and industrial engineering products forms the nucleus of Umesh Techno. Our knack to deliver excellence for our customers, business partners, and communities is driven by their commitment.

Best Price

We bring into effect our long-term business partnerships, strong liaising skills, huge order volumes, superior logistics infrastructure, and streamlined supply chain to source and supply high quality industrial chemicals & engineering products at competitive prices.

Good Quality

Our business is built on quality. We procure products only from highly reputed sources, and we have strict quality control procedures in place to make sure they meet standards. We support it with excellent customer service and technical assistance.

Infrastructure

We are determined to keep making investments to strengthen our infrastructure. Our storage capabilities enable us to maintain sufficient inventory volume of all products at all times. We have developed our in-house logistics divisions with a fleet of 100+ different types of tankers and trucks.

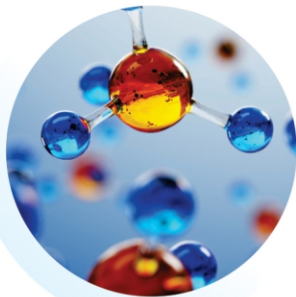

Distribution & Delivery

We are equipped to consolidate and ship products in the shortest lead time with the utmost safety across India, the United Arab Emirates, and Africa thanks to our presence in 7 cities throughout 3 states of India, seamless supply chain network and risk management expertise.

Value-added Solutions for Your Business

We have a portfolio of over 200 products and you can count on us to meet the needs of chemicals, intermediates and engineering products of a wide range of industries and applications. More than being a supplier, we add value to your business by providing technical support, market intelligence and regulatory know-how for diverse industries in addition to providing time-bound, safe and cost-efficient performance across the supply chain.

Chemicals & Intermediates

- Caustic Soda Lye
- Caustic Soda Flakes
- Phosphoric Acid 85% (Food Grade & Tech Grade)
- Formaldehyde 37%
- Citric Acid (Monohydrate and Anhydrous)
- Soda Ash Light
- Methylene Dichloride (MDC)
- Sodium Bisulphite
- STTP
- Hydrogen Peroxide 50%
- Phenol
- Melamine
- Sodium Triphosphate
- Ammonium Sulphate
- Caustic Potash Flakes
- Liquid Ammonia
- CPVC Resin
- Acetone
- Sulphuric Acid
- Calcium Chloride
- Potassium Carbonate

Industrial Engineering Products

- Couplings
- Bearings
- Drills-Tool Bits and Blades
- Pneumatic Valves and Fittings
- MS And GI Pipes and Fittings
- Automotive and Industrial Lubricants
- MS and SS Flanges
- Tools and Tackles
- Abrasive and Grinding Products
- Safety Helmet Equipment and Products
- Asbestos Cloth
- Ropes Tapes and Hand Gloves
- Gasket Sheets and Gland Packing
- Hydraulic Pipes Valves and Fittings
- HT Nuts and Bolts
- Measuring Tools and Instruments
- Industrial Power Tools
- Industrial Belts and Pulleys
- Industrial Roller Chain Sprockets and Fittings
- Material Handling Equipments
- SS Fittings Valves and Pipes
- Pressure Temperature Gauges

Adding Value by Empowering Industries

Our goal is to bridge the gap between manufacturers, processors, and end users by supporting the cost-effective, timely, and continuous supply of engineering and chemical products. The major industries where our products are used are listed below.

Oil & Refinery

Paper & Pulp

Soap & Detergents

Pharmaceutical & API

Textiles

Agro Chemicals

Dyes & Pigment

Paints & Coatings

Industrial Resins

Water Treatment

Sugar Industry

FMCG

Our Valued Clients

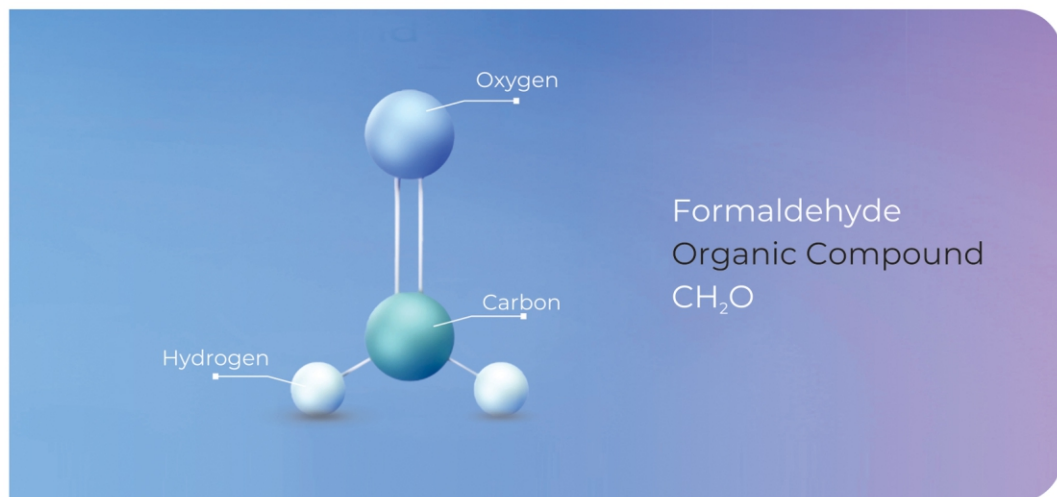

We are dedicated to supplying the necessary chemical products to support our clients in their ambitious endeavours, whether it be creating cutting-edge solutions to protect crops or creating medicinal treatments to cure illness. Here are a few of our major clients.

Naksh Formaline Pvt Ltd

Foray into Chemical Manufacturing

We have come a long way in chemical trading business and now we are all set to foray into chemical manufacturing with the formation of new entity Naksh Formaline Pvt Ltd. Under this project, we will set up formaldehyde manufacturing facility at Samkhiyali, Kutch with 36500 MT annual capacity.

Formaldehyde

Formaldehyde is the simplest but very significant type of aldehyde. Due to its strong reactivity and versatility as well as binding and preservation quality, formaldehyde is a crucial industrial chemical used in huge quantities in products for the home, aviation, pharmaceuticals, and the automobile industry. Formaldehyde further offers excellent application in building materials made of produced wood such as OSB, plywood, MDF, and particle board. Derivative products of formaldehyde are also useful as precursor in numerous industries.

Formaldehyde 37% in tankers and drum load

In Second phase we will manufacture the derivatives to cater domestic as well as export demand.
